

## VISIT TO NATIONAL INSTITUTE OF PLANT BIOTECHNOLOGY PUSA, NEW DELHI

Biology students of Class XII visited the National Institute of Plant Biotechnology, Pusa Institute on 18th May, 23. Students interacted with the scientists Dr N.K Singh and Dr Deepak Kumar Bisht who guided them to multiple research labs where they explained and showed various techniques like gel electrophoresis, PCR, Gene gun, Genome sequencer, and Centrifuge. They visited the Phytotron facility lab and interacted with Senior Scientist Dr Akshay Talukdar. They were shown how plants are grown in simulated conditions and glass houses. Students also interacted with researchers and scientists and discussed various career opportunities in Biology after class 12.
