

ROAD SAFETY WEEK

Ensuring students' safety both on and off campus is of utmost importance to Carmel Convent School, New Delhi. Keeping this in mind the Road Safety Week was held from 15th May 2023 to 19th May 2023 for classes VI-XII to raise awareness about road safety.

An educational and interactive workshop was conducted on 19th May 2023 by Sub Inspector Kulvinder and Head Constable Gurvesh on the need to adhere to traffic rules and regulations in order to keep passengers, drivers, pedestrians, and all other road users safe and lower the number of road accident fatalities.

Students understood the consequences of over-speeding, the use of mobile phones while driving, and many other unlawful practices that take place on roads. Students were awarded for their quick and accurate responses.

Throughout the week, students designed creative placards, posters and visuals that sparked insightful conversations and discussions on road safety. They were also instructed on the significance of using a helmet and a seat belt for protection. The Road Safety Week was a successful endeavour that helped foster a sense of responsibility in our students.
