**In agreement with the directives of the Education Department:**

- The school discourages the burning of Fire Crackers during the festive season of Diwali which creates air & noise pollution in the environment and is very harmful for all the living beings. Students must adopt safer measures to celebrate Diwali festival in a different way instead of using fire crackers.
- The school has decided to implement the measures regarding banning the sale/use of correction fluids/whiteners, thinners and vulcanized solutions/sulochans.

The CBSE has issued the following reminder -

The potential of information technology as a valuable learning resource is immense. However, if children use the internet without safety awareness, they may fall prey to illegal activity or abuse such as cyber bullying, fraud or something even more serious. Hence awareness of internet safety norms is absolutely indispensable. Parents are requested to take serious note of this.

**Please note:** This is the final reminder to the parents not to give steel water bottles / flask to their wards as this has already caused a lot of accidents and may even be life threatening . All such bottles will be confiscated and not returned to either the students or their parents.

*May the festival season bring blessings & good cheer into your lives.*
